B. Grim, a well known couple of town,
were quietly married on Wednesday
evening at the home of the bride on
East Main street. Rev. W. A. Edle,
pastor of the First Presbyterian
church, officiated. Only the immediate
relatives of the bride and groom wit-
nessed the ceremony.
The bride is the daughter of Mr. and
Mrs. Thomas Lowden, while the groom

ASSESSMENTS.

There is Mixup Over in Westmoreland
County Over Failure to Fix
Them.

The failure of the Westmoreland
County Commissioners to fix the val-
uations in that county has resulted
in a rather serious mixup, that may
have to be straightened out by the
courts. It is generally known that
the Commissioners have not as yet
decided as to the valuation of coal
lands for the next fiscal year assess-
ment. The Commissioners, it is said,
are in favor of an assessment of \$500
per acre for all coal, whether the
same is being developed or not, but as
yet they have not come to any final
conclusion regarding the matter.

According to the new road law, all
road taxes, whether paid in cash or in
work, must be paid prior to June 1
of each year, if the discount allowed
by law is to be saved.

Saturday was June first and on last
Friday, the last day on which to save
the discount, the various coal com-
panies sent representatives to the
Road Supervisors and township Treas-
urers and tendered to them the cash
for their taxes, based on last year's
assessments. Thousands upon thou-
sands of dollars were tendered, the La-
trobe-Connellsville Company alone
having tendered over \$4,000 in cash.
The Supervisors and the township
Treasurers, not having any duplicates,
the Commissioners not having fixed
the assessments, they could not re-
ceive the money tendered to them.

And now comes the grand mix-up.
The companies will claim that accord-
ing to the law they had to pay their
taxes prior to June 1 in order to
save their discounts, and that as no
new assessments had been made, the
former assessments would still be in
force. As the last triennial assess-
ment placed coal which would be de-
veloped within three years at \$300 an
acre, and coal which was not being
developed at all at \$10 an acre it
will be seen what the coal com-
panies stand to save, especially if the
Commissioners should carry out their
intention of assessing all coal at \$500
an acre. The coal companies will
earnestly contest any attempt to col-
lect taxes on a \$500 assessment, on the
ground that as they had to make a
tender of their taxes prior to June 1
in order to save their discounts, they
cannot be taxed more than on the old
assessments. A big legal battle ap-
pears to be in sight.

a Day from School in 12 Years.

Miss Mayme Beeghly, a graduate
of the class of 1907 of the Connellsville
High School, has made quite a record
for herself during her school days.
For the past 12 years she was present
every day and was tardy only once
when she was detained by a train.
During the past 10 years her general
average was the highest.
Miss Beeghly is a sister of P. H.
Beeghly, the North Pittsburg street
grocer, and has a host of friends here
who will be pleased to learn of her
successful school life.

BAKED BEAN FARE FOR THE PRISONERS

With Spring Onions on Side
Provided by Chief Rot-
tler's Sub.

VIRGINIAN HAS BAD MEMORY

Forgetting His Native Town, But Ad-
mitting That He Once Worked in
Fairchance—Sentences by Burgess
A. D. Solson.

They are getting extravagant at the
lockup. Chief Rottler has been away
on a business trip for several days
and now "Davy Crockett" Francis is
in charge of the prisoners. As the
man came in unusually bright, Francis
thought sure it would "hold up" dur-
ing the day and decided to give him
changes an extra good feed. In addi-
tion to the regulation menu of beans
and water, Davy added a can of baked
beans, costing all the way to 10 cents,
two loaves of oat meal, at the sam-
ple price, a nickel's worth of spring
onions, and a package of smoking to-
bacco. Also a five-cent bottle of vase-
line. The prisoners didn't eat the
latter but one fellow with a scratched
up arm and made good use of it. Un-
fortunately, Davy's plans went wrong
and the day wasn't half as nice as he
hoped it would be.

Marshall Davis, of Alexandria county,
Virginia, who left that country a
year ago and has since forgotten the
name of the town in which he lived,
appeared before Burgess A. D. Solson
this morning on the charge of drunk-
enness. Marshall, who is colored, had
trouble in remembering almost every-
thing. He came here from beyond
Fairchance yesterday evening and got
drunk. He admitted the charge and
got 10 hours.

James Blackstone, also colored, an
employee of the Carnegie Steel Com-
pany, who lives in McKeesport, fell
into drunkenness at the hands of Of-
ficer McDonald. James had been visit-
ing his girl at Scotland and came
home on the 1st car. All the
following places were cited and finally
McDonald pulled him in. Blackstone
told his story straight. He objected
to being locked up but McDonald
gave him a tap under the chin with
his mace and he came along to save
trouble. James was held pending a
report from the officer.

INSURANCE COST

Installation of Sprinkler System in
Larger Local Stores Was Dis-
covered Yesterday to Cut
Down Rates.

N. C. Porter, of the firm of Jameson
& Frohman, of New York City, was
a business visitor in town yester-
day and left last evening. Mr.
Porter is one of the firm of the large
insurance brokers engaged in the
general well known companies doing
business in this and other states.
With W. C. Armstrong, Secretary of
the Insurance Association, visits
were made to the larger stores and
manufacturing plants and discus-
sions were had concerning the instal-
lation of sprinkler systems in order
to curtail the cost of the insurance.
It is understood that several local
firms are interested in this plan, as
it offers opportunities of saving money
which are not available through the
present insurance facilities.

USED A KNIFE.

Itinerant Texas Painter is Too Free
With Weapon and Will Rest
Up in Jail.

This morning Squire Frank Miller
committed R. W. Moody of Dallas,
Texas, to jail for carrying concealed
weapons. Moody was traveling on a
box car "Pullman" with Foster Padon
when arrested by Officer Baileys. Padon
went along all right, but Moody
pulled a long knife and tried to use
it on the officer.

This will be the parting of the ways
for the two painters. They were hired
for New York, but Padon will have
to satisfy himself with giving Moody's
regards to Broadway, Herald Square,
Forty-second street and other Cohen
landmarks. Padon, however, will
first have to do 15 hours in the lock-
up, the sentence of Burgess Solson.

fice Takes a Bride.

BENGEL-CUSTER.

Well Known Young People of Town
Are Married at 8 O'clock This
Morning.

The residence of Mr. and Mrs.
Samuel Custer of Snyder street was
the scene of a pretty appointed wed-
ding this morning at 8 o'clock when
their daughter, Miss Alice Custer, be-
came the bride of Harry T. Bengel, a
well known young man of town. Rev.
A. J. Ash, pastor of the Methodist
Episcopal church, officiated.
The bride and groom were unattended.
As the bride and groom entered the par-
lor where the ceremony was performed,
Lohmeyer's wedding march was
rendered by Mrs. Walter Haines while
"The Flower Song" was softly rendered
during the ceremony. The bride
wore a white embroidered gown and
carried a shower bouquet of white
roses. At the close of the ceremony
an elegant wedding breakfast was
served. White carnations formed the
attractive center place at the bride's
table where silver vases were laid for
light, white pink and white was the
color scheme used in carrying out the
decorations throughout the various
apartments. Flowers and ferns were
also much in evidence, adding a touch
of green to the color scheme.

The ceremony was witnessed by the
relatives and a few new friends of the
bride and groom. The groom is a well
known B. & O. engineer, while the
bride is a very popular young lady of
town. Mr. and Mrs. Bengel left this
morning on a month's wedding trip,
which will include Cincinnati and

A thunder storm accompanied by
a brilliant and electrical display as

Wednesday evening. This storm, un-
like that of Tuesday night, was ac-
companied with little rain. The dam-
age done was small.

Several trees and electric light
transformers were blown out by the
lightning and half the town was
plunged in darkness. Those who had
no gas lights sought refuge in candle-
and lamps, while many people
sought their downy beds in the dark.

MANY POINTS OF LAW ARGUED.

Grand Jury Ignores Bill Charging
Wick Haven Italian With Murder.
Rube Marietta Acquitted But Pays
Costs—Verdicts in Two Cases.

UNIONTOWN, June 6.—Strange in-
deed was the case told by Charles Bou-
los to the jury in Judge Reppert's
court this morning when placed on
the stand to defend himself from the
charges of conspiracy that have been
made against him. This case was de-
layed for fully two hours this morn-
ing during arguments on points of law
concerning the evidence submitted.
Boulos on the stand admitted that on
several occasions he had strange clerks
working for him on Sunday. He
said that two of them would apply
each Sunday night about 10 o'clock
for employment, which he gave them.
He asked no questions and didn't even
know their names. They would work
a day and then leave. The next Sat-
urday night two more would appear.
On cross-examination Boulos ad-
mitted that he left the strangers alone
in his store at times. In spite of this
Boulos maintained that he didn't
know their names and never asked for
them.

Attorney Dumbauld argued for the
defense this morning, after which ad-
journment was taken. This afternoon
will come Attorney Hudson's address
Commonwealth admitted not making
out a case against Stove Soltras, who
was held on a similar charge, and a
verdict of acquittal will likely be re-
turned for him.

Before Judge Umbel this morning
"Rube" Marietta of Dunbar was tried
for furnishing liquor to minors, Louis
Lowry, of Dunbar (township) being the
prosecutor. Marietta was found not
guilty but has to pay the costs.

The Grand Jury this morning ig-
nored the bill of murder against Con-
stanze Aleone. Aleone is alleged to
have slashed Mike Ponfetti in the
leg during a fight at Vick Haven.
Ponfetti having died to death. Et-
tore Alberti was the prosecutor. The
fight occurred April 21 and it developed
that Ponfetti was the aggressor and
there was no evidence to show that
Aleone was the one who wielded the
fatal knife. Other bills favored by the
Grand Jury were Zar Denis, assault
and battery and aggravated assault
and battery, John Yonhof pay costs;
George Yonhof, willfully obstructing
an officer and assault and battery,
roumy pay costs.

George Markie, the West Penn con-
ductor, charged by Mine Inspector I.
G. Roby with larceny, was convicted
in a verdict returned yesterday after-
noon. It was alleged that Miss Anna
Roby, a daughter of the prosecutor,
had given Markie a \$5 gold gold piece
in place of a quarter and that she
told to get the change.

Another conviction was that of An-
drew Lewis of Brownsville, charged
with perjury in connection with the
settlement of his brother John's es-
tate, on which he was granted letters
of administration.

The following true bills were re-
turned this morning: Henry Polick,
larceny by clerk; Andy Forbush, as-
sault and pointing firearms; Morris
Krell, assault and battery and aggra-
vated assault and battery; John J. Col-
lins, murder; John Uhren, assault and
battery; H. Seidel, selling cigarettes
to minors.

stealing copper binding wire from
Wynn works. Perkins is alleged to be
the head of a gang which piled a
rich trade swiping wire from various
cork works.

S. R. Goldsmith was this morning
appointed administrator in the estate
of Raphael Buchardt of Connellsville.
Arthur Greenall this morning pled
guilty to a charge of malicious mis-
chief preferred by William P. Dile of
Georges township. On May 17 Green-
all was one of a party of young men
who passed the Dile's horse, Greenall
heaved a rotten egg at Dile's door,
which raked quite an odor in the
community.

In Judge Umbel's court O. P. An-
stin of near Fairchance was found guilty
of furnishing liquor to minors but
not guilty to adultery.

SHUT FAIRMONT OUT.

Dick Jaquot Pitched Fine Game in Miserable Weather Yesterday.

BOTH THE TEAMS FIELDIED WELL

Connellsville Got a Run Over the Pan in the First Inning and That Lone Tally Was Enough to Win—Boys Play With Dash and Spirit.

Rain, wind and cold didn't prevent Connellsville from winning the third and last game of the present series from the Fairmont leaders yesterday afternoon. The local boys were only won, but Dick Jaquot, the star pitcher designated by Captain Parsons to send his slants across the pan on the occasion hereinafter mentioned, literally soaked the visitors in Malarkey's whitewash barrel. A row of nine round men fruit is all that Reddy Muek's crew could draw from the Mud Islanders. Our boys got a man across the pan in the first and after that they had the same application of kalsomine that was handed to the other fellows, but the one little tally was enough to take a reef in Fairmont's hold in first place.

With their pockets lined with real money, the result of it being pay day, Connellsville players needed like friends, going after everything that came their way. All the 31 batsmen who faced Jaquot all but seven topped the ball. Only one misplay was chalked up against each team. Jaquot did it for Connellsville, dropping a high fly in the ninth.

It looked like the tall lumber for Mr. Schmoneky in the first. He hit Wagner and both Hart and Parsons drew singles on deceptive bunts that couldn't be handled. Francis fouled to Gates, but Tiffany hit down the third base line. Gates threw Wagner out at home, and but for Cowan dropping Conner's throw, Tiffany would have been napped at second. Hart chased home on this play and tallied. This was all Connellsville could do in the scoring line.

In several innings the locals had a fighting chance to score, but Fairmont settled down and cut off all attempts along that line. Fairmont also got a couple of chances. In the fifth Conner swatted one to left that looked good for a home run. Quick work on the part of Parsons nipped the ambitious runner going into third and Birmingham nailed him by a clean foot.

In the seventh, with two out, Murphy lammed a triple to right, but Conner fanned. Another gloomy inning. Jaquot dropped a high foul fly. Haught flew out to second and Jaquot nailed Murphy's liner and retired the side by throwing him out at first. Wolfe's umpiring was off color at times and Fairmont sent up an awful wall on several occasions. Wolfe was especially bad on balls and strikes, and Jaquot got his share of the bad decisions with Schmoneky. Sometimes they had a kick and sometimes they hadn't. Following is the score:

Connellsville	R.	H.	E.	F.	A.	E.
Wagner, m	0	0	0	0	0	0
Hart, 2	0	1	2	0	0	0
Parsons, 1	0	1	1	0	0	0

Fairmont	R.	H.	E.	F.	A.	E.
Mack, 2	0	0	0	1	0	0

Schmoneky, p	0	0	0	3	0	0
Charles, 0	0	0	0	0	0	0
Totals	0	5	24	11	1	0

*Run for McFarlan in the ninth. Connellsville 1, 0, 0, 0, 0, 0, 0, 0, 1. Fairmont 0, 0, 0, 0, 0, 0, 0, 0, 0. Three base hit, Murphy. Two base hit, Conner. Sacrifice hits, Parsons, Wagner. Stolen bases, Hart, Parsons, Mack. Struck out, by Jaquot 5; by Schmoneky 1. Bases on balls, off Jaquot 2; off Schmoneky 3. Hit by pitched ball, Wagner. Left on bases, Connellsville 8, Fairmont 6. Time of game, 1:15. Umpire, Wolfe. Attendance, 200.

Notes of the Game. Amsbury's fielding was spectacular. The little fellow was all over the diamond and pulled down everything that looked like a chance. His stop of Cowan's drive at second in the eighth was great, and so was Tiffany's catch of the throw. Fairmont kicked on Wolfe's decision, but Cowan was clearly out, though by a small margin. Tiffany made a pretty catch of Birmingham's throw in the sixth. The ball was a little white, but Tiffany got it in his gloved hand. It was a neat play. Birmingham played a sensational game at third. His two assists were both difficult. The little fellow is as active as a cat and covers lots of territory. He recovers quickly and throws accurately from any position. Parsons got four hard flies in left. Most of them were line drives, but the big fellow took care of them. One or two looked safe. The wind made it almost impossible to judge the ball. Only one stolen base off Moran. Murphy tried it, but was nipped. Danny Hart only had two chances. One was on a throw to second and

the other a mean fly. Danny's base-running was right there.

Francis had two hard flies in right. He let one get through him that netted the runner three sacks. Chip was a little slow on the hit.

Speaking of baserunners, Hart, Parsons and Birmingham are among the best on the team. Parsons has the longest head, but the other two move quicker.

It looked bad on Connellsville's part to kick on McFarlan having a runner after he had made a clean single in the ninth. The big fellow has a bad ankle and couldn't beat Moran in a 90-foot sprint.

Reddy Mack is a great beofer. Some of his kicks wouldn't hold water and he made no friends by his continual chewing. Conner is another kicker. The little fellow is there with the goods behind the bat, but he lets his temper get away with him at times.

Wolfe's umpiring was way off at times. He was especially bad on balls and strikes. Both sides suffered by his decisions.

Yesterday was the first game under the local management. Nearly all the stockholders were out rooting for victory.

Hereafter Friday will be ladies day instead of Monday. Ladies will be admitted to the grandstand free for one game. This is something that all legal and chivalrous fans will appreciate. So far the ladies of the town have been doing their share of rooting for the home team. They turn out in good numbers and enjoy the game. Jaquot has lost much of his wildness. He had lots of steam and worked nice. Wait until the warm weather comes and then Dick will show them all some smoke.

The new franchise holders are taking hold of things right. They intend to cut down the pass list. At present there are 10 dead-heads in one place. This number will be slashed about in half.

Clarksburg won now for three days. Since their last appearance here the Easties have been playing much better ball.

Fairmont left on the Duquesne last evening for Cumberland, where they play three games.

Alex. Lawson has been located in Newark, N. J. The mosquitoes had better look sharp over there.

Billy Earle is now the only Lawsonite holding a franchise. Billy is a good fellow, however, and has made good in the mill town. His team is certainly picking up. Their work in the Greensburg series shows the Scottsdale boys in a good light. Haught's work in middle yesterday was all to the good. He got four hard chances.

Greensburg is the only team in the League that hasn't played a game here so far.

President Tom Humond of Fairmont is making the new West Penn schedule. So far his arrangement has been all right.

Butler is still in the game. Those boys can play ball even if Lawson has left.

Wolfe could have called the game at the end of the first half of the fifth yesterday. It rained so hard that the bleacher occupants took refuge in the grandstand. Either way, no difference would have been made in the score.

Tucker and Love will be released. Amsbury has shown up so well at short that he is more satisfactory than "Fish," while Elmer Turner's pitching is good enough to suit Malarkey.

Schmoneky passed two men and only struck one out. Fast fielding behind him and ability to keep the hits down saved a worse defeat.

Pitcher Cantritz of the New Castle O. & P. League team will join Clark-burg here. He is not Howard Cantritz, who pitched for Pittsburg and Columbus.

Jack Warner will get a tryout in a few days. He is a little good (well, or, it is said, that will be good) when he gets a fair chance. The day he worked the team was in the dumps and gave him miserable support. There is more money back of the Connellsville team now than any team in the league. Those who have taken up the proposition here are, collectively worth money up in the hundreds of thousands. They are determined to make the team go. Others are now trying to break into the company and are applying for stock in the Association.

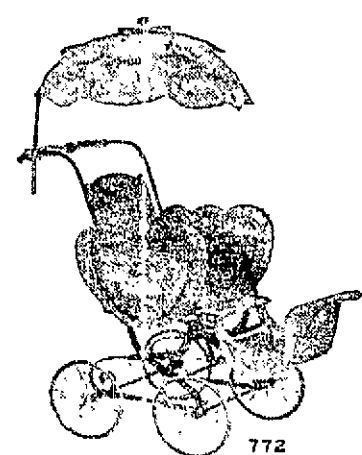

Both teams were hitting hard yesterday, but usually the ball went into the hands of some elder. The game was probably the fastest fielded one played on these grounds this season. Tiffany is hitting in hard luck. His hit all go into the air. Uniontown is still at the top in the T. O. M. They took another from East Liverpool yesterday.

This weather is disheartening for everyone interested in baseball, fans, maganotes and players.

SIX IN THE CLASS.

The St. John's Parochial School in Scottdale Holds Commencement.

SALARY INCREASED TO \$1,650.

In Reorganization of Scottdale School Board Edgar Reed Re-elected Principal and His Salary Increased. Kelly-Barkel Wedding.

SCOTSDALE, June 6.—Very lovely in all its features was the annual commencement of St. John's parochial school which took place at Temperance hall on Wednesday evening. There was a profusion of flowers and the scene was very pretty. The program was as follows: "School Festival Song," by school; salutatory, Miss Elizabeth Glenn; distribution of honors, by Rt. Rev. M. A. Lambing, pastor of St. John's Church; "Wave Song," by little girls; piano duet, "Country Dance," chorus; "Gladness Wings Our Fairy Flight," valedictory, "Christian Art," Miss Winifred B. Donnelly; essay, "Success," Miss Gertrude C. Evans; essay, "Politeness," Miss Margaret M. O'Connor; essay, "Christian Education," Miss Catherine Lynch; essay, "Vallie," Miss Julia A. Sterout; chorus, "O'er Blooming Meadows," rose drill, by little girls; song by class, "Touch Us Gently, Gentle Time," hymn, "Mary Immaculate," by all the pupils; address, by Rev. G. O'Connor. Miss Maude Owens and Miss Frances Evans were the accompanists. Everyone acquitted themselves with great credit and this was voted one of the finest commencements yet held.

The Scottdale Board of Education at its last meeting organized by electing: Robert Skomp, President; Dr. O. I. Hess, Secretary; and J. O. Landenberg, Treasurer. Edgar Reed was re-elected Principal and his salary increased \$150 per year, so that he will next year receive \$1,650. It was said that he was likely to leave unless the increase was made. The Board will meet next Monday evening to elect teachers.

A marriage of interest to the many friends of the principals was solemnized by Rev. W. W. Williamson, pastor of the United Brethren Church, when he united Miss Sara Barkel and Albert H. Kelly, on Wednesday morning. The groom has been a resident of Scottdale for some years, having come here and organized the Continental Silver Company, of which he was President and General Manager. He will resign these positions, having purchased a casket factory at Tionesta. The bride is one of the charming young women of town and is noted as a singer, taking a prominent part in the musical affairs of the town. The couple left immediately after the ceremony for New York, Washington and Jamestown. They will reside at Tionesta.

Representative Milliron of Venango county was visiting Hon. Berkeley H. Boyd on Tuesday, and then went on to Uniontown to visit with Hon. John S. Carroll. The trio left for Harrisburg on Wednesday to attend the State Republican Convention.

Allan Porter, the recently appointed Health Officer for East Huntingdon township, was called to Jonestown on Wednesday to consult with County Medical Inspector T. A. Killingsworth, M. D., and get his supplies.

All the citizens of the town and surrounding country are urged to be at the borough building this evening to take part in the public meeting for the purpose of arranging for the Fourth of July celebration. Scottdale wants to have a big celebration but the people cannot expect someone else to do everything in arranging for the day, and each individual is wanted at the meeting, which will be held at the borough building at 8 o'clock.

The day was a day of storms, rain hail and thunder, displaying their powers in profusion. The hail storm during the forenoon was a violent one and accompanied by vivid lightning. Little else than the weather comes in for much part in general conversation these days.

B. Frank Porter arrived home from Dickinson College, Carlisle, on Wednesday evening and will spend his vacation with his parents, Mr. and Mrs. M. B. Porter.

Charles Z. Wilson of Syran spent Wednesday with relatives here.

Burglars entered the Wagner shoe shop next to J. S. Parker's Company and stole some shoes on Wednesday evening.

ROCKWOOD.

Bright Paragraphs From the Big Somerset County Borough.

ROCKWOOD, June 6.—The store of Levi Welmer at Casselman was the scene of an attempted burglary on last Monday night. Just as Mrs. Welmer was going to lock the front door for the night, a masked man sprang up and pointing a revolver at her face, demanded that she throw over to him all the money. Fortunately some young men saw the actions and ran to the rescue. The burglar, seeing that he would be captured if he pressed his demands, disappeared in the darkness. Notwithstanding his disguise, Mrs. Welmer is certain that she recognized the features of a young desperado of that town.

"Baseball playing on the Sabbath is not in itself an indictable offense, but when it becomes a nuisance in a community it should be suppressed."

Letter to Squire Mason,

Dear Sir: Todd & Downing, contractors and builders, Morgan City, La., have painted Devco for three or four years. They say it takes less gallons Devco than of any other paint they have used. That means that a job costs less with Devco; not only for paint, for labor as well.

They paint nothing else, Devco exclusively. They have said nothing about the comparative wear of Devco and others; overcoat, may be; perhaps too soon to tell. But Devco is the strongest paint; that's why it's used on best wear, same reason least cost and longest time between jobs.

Yours truly,

FRENCH RED TAPE.

A Professor, His Lobsters and Some Casks of Sea Water.

Last year a professor in one of the Paris universities resolved to study the habits of lobsters in his laboratory. As they live in salt water, the first care of the professor was, of course, to procure a supply of this medium. The common mortal will probably consider it a most simple task—to provide a few barrels of sea water. This, however, is not so in France. Sea water contains salt, and the production of salt is a source of revenue. This made it necessary for the professor to first obtain the permission of the minister of finance before he could travel and transport the water. When his application reached the ministry, a subordinate official was directed to inquire into the standing of the petitioner. This involved considerable correspondence, which passed through numerous channels and finally reached the chief of the department, who now initiated another investigation in order to ascertain why a Parisian professor should be so anxious to lower the level of the Atlantic ocean. After several weeks the inspector made a favorable report. Some days later the petitioner was notified of his request in the usual elaborate official language, accompanied by circulars giving extracts from the penal code relative to infractions of the salt monopoly.

Finally, after months of waiting, the professor was enabled to have some casks filled with salt water at a designated point on the coast, of course under the supervision of another official, who duly issued a permit for the transportation of the liquid into the interior.

COSTLY RAZORS.

Some Gold Handled That Sell For \$50.

Handles of Silver and of Ivory. If a man were content to shave himself with a razor having a hard rubber handle, an indeed most men are, he could buy one with a blade of very excellent quality for a dollar, but there are razors far more expensive than this.

Thus there are sold razors with handles of 18 carat gold and of plain smooth finish that bring \$50 each. A pair of such razors in a plain silver box can be bought for a hundred dollars.

But \$50 is not the limit of what one may pay for a gold handled razor. If the handle were elaborately chased its cost might mount up to two or three, or \$200 for a pair.

There are also sold among these more expensive, silver handled razors which range in price from \$6.50 to \$50 each, \$6.50 being the price for one with a plain silver handle, while those more costly have their handles more or less elaborately chased or carved.

A man who did not altogether like a hard rubber handled razor might find his fancy suited with one having a handle of ivory, and an ivory handled razor need not necessarily be expensive. A razor with a plain ivory handle can be bought for \$2. Of course any carving would add to the cost. Costly razors are usually sold for gifts.—New York Sun.

STAGE FRIGHT.

The Way Henry Miller Rendered a Well Studied Line.

In Toronto, almost my first appearance on the stage, I was cast for the part of Shrewsbury in "Amy Robsart." The title sounded imposing, and I felt quite important, although I had but a single line to speak. In answer to Queen Elizabeth's command, "I charge thee, my Lord of Shrewsbury, arrest that man," I was called upon to reply, "Whom does your grace mean?"

My perturbation over that line was probably more serious than anything in my subsequent career. What emphasis to give, what intonation to use, what manner to assume, gave me greater concern than I felt later over an interpretation of Hamlet. I repeated the line a thousand times, crossing first one word and then another, using this intonation and that, and getting into it every grade and shade of meaning. With what result? So far as I could learn afterward, I did not speak it at all on the opening night. The leader of the orchestra was the first person I bronched on the subject.

"How did I speak my line?" I asked him after the play, longing for the encouragement none had vouchsafed to volunteer.

"I didn't hear you say anything at all," was his disheartening rejoinder. And neither did any one else whom I could discover.—Henry Miller in Bohemia.

The Age of Marriage.

The age of legal validity marry in England is much lower than in Italy. The English law has adopted in this respect a law of Roman and even Athenian origin, by which the ages of fourteen and twelve were fixed as the marriageable ages of males and females, respectively. In Italy the age is fixed by the civil code at eighteen and fifteen. Formerly the age of spouses in England was as low as seven for both sexes, but such marriage was not considered perfect, for the parties might disagree to it when they arrived at the mature age of two or fourteen.

Poets' Themes.

The cynics of our time have whitewashed many of the poets. Poets like the earlier Swinburne, practically praised just as an expression of the love of life. Poets like Mr. Rudyard Kipling practically praised exactly as an expression of the love of life. Poets like Mr. Healey and Mr. John Davidson have practically praised drunkenness, or violence, or obscenity as expressions of the love of life.—G. K. Chesterton in London News.

FORAKER IS SAFE.

Ohio Senator Is Assured He May Visit Brownsville Unmolested.

WITNESS COWAN SAYS SO

Also Says St. Louis Dispatch Referring to Tar and Feathers for Foraker Is Untrue—Senator Asks Pertinent Questions.

Washington, June 6.—Senator Foraker has been given assurance that it would be safe for him to visit Brownsville, regardless of his efforts to prove that negro soldiers were not guilty of shooting up the town. At the conclusion of the testimony of Louis Cowan of Brownsville, who was a witness before the senate committee on military affairs, Cowan said he had been quoted in special dispatches from St. Louis as saying that if Senator Foraker went to Brownsville he would be "tarred and feathered." Cowan denied that he had made any such remark.

"Then you think it would be perfectly safe for me to go there?" asked Senator Foraker.

"Oh, yes, sir," said Cowan. "I greatly appreciate this assurance," said Mr. Foraker.

The senator then referred to another special dispatch saying that Cowan, on his way to Washington, compelled a negro porter to make up a berth on a Pullman car by threatening to shoot him. Cowan also denied the truth of this story.

Senator Foraker told Cowan that he had seen the stories, but thought so little about them that he had forgotten them.

INTRODUCTIONS UNAVAILING

Something Stronger Needed to Land Harrisburg Contracts.

Harrisburg, June 6.—In the hearing before the capitol investigation commission George Albertson of Pittsburgh, connected with the Duquesne Sanitary company, testified that he had attempted to bid early on plumbers' supplies for the capitol building, but thought that an introduction to some men of influence would be availing. He called upon former Governor Stone, president of the capitol building commission, who furnished him with a letter of introduction to Israel W. Durham, and with this communication the witness appeared at the latter's office in the Betts building, Philadelphia.

Durham, it seemed from Mr. Albertson's testimony, did not care to have anything to do with him personally and referred him to his secretary J. Clayton Trb, who introduced him to several men, but the visit did not result in securing any part of the capitol contracts for the Duquesne company.

Other witnesses testified as to the Sterling Bronze company being deprived of the contract for furnishing the lighting fixtures for the capitol, while Stefan De Kosenko was in the south for his health. One of these witnesses, Wallis Bellows, declared that by telegram Mr. De Kosenko had informed him that insufficient political "pull" had been used. The result was that De Kosenko was finally not considered by others interested in securing the contract and the Pennsylvania Bronze company, a new concern fostered by John H. Sanderson, general contractor, for the capitol supplies was formed. Some of the members of the Sterling Bronze company were taken as partners in the Pennsylvania firm, which afterward sold out to the Sterling Bronze company.

C. H. Miller of Pittsburgh, a member of the firm of Miller Bros. & Co., ridiculed the statement made on the stand by his colleague, Mr. Roydhouse, that the Miller firm had agreed to pay Richard B. Scandrett anything like \$350,000 for his services.

BRIDEGROOM DISAPPEARS

Pittsburg Man Cannot Be Found and Prospective Bride Weeps.

Cincinnati, June 6.—Charles J. Hartman of Pittsburgh, a misanthrope in the United States navy, mysteriously disappeared from Hamilton, O., an hour before he was to have been married to Miss Carrie Brucks, aged 18 years, of that city. The police of Cincinnati have been asked to search for him.

The acquaintance was formed through a matrimonial paper and last Sunday Miss Brucks got her first glimpse of her affianced as he stepped off a train in Hamilton. In order to recognize each other Miss Brucks carried a garland of roses and Hartman conspicuously displayed a silk pocket handkerchief.

Trustees' Petition Denied.

Concord, N. H., June 6.—The petition of the three trustees to whom Mrs. Mary Baker Eddy had transferred her property asking that they be substituted as plaintiffs in place of next friends in the suit to secure an accounting of Mrs. Eddy's property was denied by Judge Robert N. Chamberlain of the Merrimack superior court. The trustees are Henry M. Baker of Bow, Josiah E. Fernald of Concord and Archibald McClelland of Boston. The "next friends" are George W. Glover of Lead, S. D., son of Mrs. Eddy; Mary Baker Glover, his daughter; Fred W. Baker, a cousin; Dr. J. Foster Eddy of Waterbury, Vt., an adopted son, and Leo Baker of Bangor, a cousin.

Found in Well. Minneapolis, Minn., June 6.—The body of Mrs. Catharine McCart, 1201 Franklin avenue, who had been missing since May 24, was found in an abandoned well on the farm of George Katselbach, near the city. The woman's head had been crushed. Katselbach would not allow detectives to question him, barricading himself inside his house. The officers remained on guard, however. When they entered the home in the morning it was found Katselbach had escaped during the night. Search for him was at once made.

Russia Claims Satisfaction. Washington, June 6.—Baron Rosen, the Russian ambassador, has called the attention of the department of state to the fact that certain official officials have not been called to justice for the killing of a Fifth Avenue as an incident to a miner's plot of about a year ago. Following the usual course, the state department will lay the complaint before the governor of Michigan.

Boy Mayor Is Not Stagestruck. Milwaukee, Wis., June 6.—Mayor Sheburn Becker of this city has decided not to go on the stage as leading man in a political drama. He will continue his duties as mayor of Milwaukee until the end of his term. Mayor Becker wired the Chicago representative of W. A. Brady that while he appreciated the flattering offer made by Brady, he must decline.

Crop Forecast Impossible. Washington, June 6.—In the Holmes investigation Stephen Feasenden said in the course of his testimony that it would be impossible for any one, even with all the information before him, accurately to forecast the cotton crop report an hour before its issuance, because of the fact that the final figure is always the result of the exercise of the judgment of the chief statistician.

Erle, Pa., June 6.—A broken brake beam on a westbound freight train on the Nickel Plate railroad derailed the train at Harbor Creek, six miles east of here. The train was made up of several cars of merchandise and four cars of naphtha.

Orchard Gives Revolting Details of Crimes in Western Mining District.

HAYWOOD BEARS UP WELL

His Mother and Daughter Are Following the Case Closely—Composed Prisoner Makes Copious Notes of Testimony.

Boise, Idaho, June 6.—Alfred Horsley, alias Harry Orchard, the actual assassin of Frank Steunenberg, went on the stand today as a witness against William D. Haywood and made public confession of a long chain of brutal, revolting crimes, committed, he said, at the inspiration and for the pay of the leaders of the Western Federation of Miners.

An undertaking by the special prosecutors for the state, that they would by later proof and connection make his testimony legitimate, opened the way like a flood gate to the whole diabolical story, and throughout the entire day Orchard went on from criminal to criminal, each succeeding one seemingly more revolting than the one that preceded.

Orchard confessed that as a member of the mob that wrecked the Bunker Hill and Sullivan mill in the Coeur d'Alene, he lighted one of the fuses that carried fire to the giant powder explosion; confessed that he set the death trap in the Victorville mine at Cripple Creek that blew out the lives of Superintendent McCormick and Foreman Deek; confessed that because he had not been paid for his first attempt at violence in the Victorville mine he had been treacherous to his associates by warning the managers of the Florence and Cripple Creek railway that there was a plot to blow up their trains; confessed that he cruelly fired three charges of buckshot into the body of Detective Lyte Gregory of Denver, killing him instantly; confessed that for days he stalked Governor Peabody of Colorado about Denver, waiting a chance to kill him; confessed that he and Steve Adams set and discharged the mine under the station at Independence that instantly killed 14 men, and confessed that, falling in an attempt to poison Fred Bradley of San Francisco, he blew him and his house up with a bomb of gelatin powder.

Horsley then told the story of the blowing up of the property, in which he said W. F. Davis, later president of the union of the Western Federation of Miners at Cripple Creek had command of the mob. He told of the seizure of a train, the theft of giant powder, the attack on the mines, and, concluding said: "I lit one of the fuses myself."

Next Horsley related how he journeyed to Southern Colorado as a guard to Meyer.

When taken from the stand Horsley was at once driven to the penitentiary. Haywood's mother, Mrs. Carothers, of Salt Lake City, and her daughter, sat beside the prisoner and his wife, they having arrived from Salt Lake City. Mrs. Carothers is a beautiful woman of middle age and her daughter is a pretty girl of 20. The prisoner's two daughters were absent. Haywood held a note book and at intervals took notes of the proceedings. He bears up well under the ordeal.

OPPOSE SALE OF ROAD

Carious Charges Made Against Morgan in Ohio Railroad Deal.

Toledo, O., June 6.—A petition opposing the confirmation of the sale of the Toledo Railways & Terminal company was filed in the United States circuit court here by the Ohio Savings Bank & Trust company. It alleges that J. Pierpont Morgan and his allies in banking and railroad circles entered into a conspiracy at the time the terminal road was sold and that a committee representing the bondholders bought the road at the set price of \$2,000,000. It further charges that the creditors were prevented from bidding on the road by a pre-arranged plan of Morgan and his allies. It is said that the road would have sold for a much higher price had it not been for this alleged agreement between the railroad interests, which froze out unsecured creditors and holders of floating indebtedness. The petition avers that should the sale of the road be confirmed, a scheme is afoot to organize a purchasing company and bond the road for \$6,000,000, these bonds to be secured by the Pere Marquette, Lake Shore and other railroads said to be in the Vanderbilt system.

All the railroads entering Toledo, with one or two exceptions, are under the control and influence of Morgan. It is alleged, and as a result of this one of the roads opposed the bidding of the bondholders' committee which purchased the road at the remarkable low price on May 28.

JAIL FOR H. H. TUCKER.

Oil Secretary Gets Three Months for Hasty Conspiracy Charges.

COURT CLERK REPRIMANDED

Judge Hook Arraigns Tucker, His Attorney and All Who Participated in His Defamation—Strikes Affidavit from Files.

Leavenworth, Kan., June 6.—Judge W. C. Hook of the United States circuit court sentenced H. H. Tucker, Jr., indicted secretary of the Uncle Sam Oil company, to serve three months in jail for contempt of court, the contempt being an affidavit filed by Tucker alleging a conspiracy between Federal Judges Pollock, McPherson and Phillips and the Standard Oil company to drive the Uncle Sam company out of business.

Judge Hook condemned the action of Attorney Albert L. Wilson of Kansas City, who prepared the affidavit. The judge said that the only purpose of filing the affidavit was to create interest in the papers and influence public sentiment. The clerk of the court was reprimanded for placing it on file. The affidavit was stricken from the files by order of Judge Hook.

The affidavit alleged that Judges Pollock, Phillips and McPherson went on a fishing trip to Tampico, Mexico, on January 28, 1906, in the private car of Gardner Lathrop, head of the legal department of the Santa Fe railroad, and strongly intimated that during the trip a conspiracy was entered into between the judges and the Standard Oil company. The assertion was made in the affidavit that the Standard Oil company and the Santa Fe railroad were controlled by the same persons. The affidavit further alleged that Judge Pollock made a statement against Tucker and the Uncle Sam company out of court.

CLEOPATRA.

The Story of Her Death From the Bite of an Asp.

It is admitted that Cleopatra killed herself to avoid being exhibited at Rome in the triumph of Octavius, who had made war upon her and Antony because the latter had divorced his (Octavius) sister on the queen's account. But did she die from a snake's bite? It is better to think not. "If her death had been caused by any serpent, the small viper would rather have been chosen than the large asp, but the story is disproved by her having decked herself in the royal ornaments and being found dead without any marks or suspicion of poison on her body."

Death from a serpent's bite could not have been mistaken, and her vanity would not have allowed her to choose one which would have disgraced her in so frightful a manner. Other poisons were well understood and easy of access, and no boy would have ventured to carry an asp in a basket of flowers, some of which he even offered to the guards as he passed, and even Plutarch shows that the story of the asp was doubtful. Nor is the statue carried in Augustus' triumph, which had an asp upon it, any proof of his belief in it, since the snake was the emblem of Egyptian royalty. The statue (for the crown) of Cleopatra could not have been without one, and this was probably the origin of the whole story.

Deaf Dogs Are Rare.

People have been known to exchange watch dogs for devotion of duty on the ground that the dogs might be hard of hearing. This excuse ought not to go. A veterinary surgeon of Cleveland remarked that in his thirty-five years' experience he had never heard of a deaf dog. His remark led to inquiries among two or three other veterinarians and not one had ever heard of a dog that couldn't hear. When a watch dog or any other dog doesn't hear a man that is prowling about the house it is because it doesn't want to hear. Horses are frequently treated by veterinarians for deafness, and even cats are hard of hearing occasionally, but deaf dogs seem to be unknown in Cleveland at least.

The Mohammedan Oath.

Of all the many forms of taking the oath used in the courts perhaps the most picturesque is that which the Mohammedan is required to take. It is a silent ceremony. The son of Islam places his right hand flat upon the Koran and puts the other on his forehead; then he brings his forehead down to and in contact with the book. He then raises himself and looks up steadfastly for some seconds. The officer of the court should then—though he sometimes forgets this—ask the Mohammedan, "Are you bound by the ceremony you have performed to speak the truth?" and the answer is, "If God will." In India the ceremony has been abolished in favor of an affirmation.

Schmitz Trial Under Way.
San Francisco, June 6.—The opening address for the prosecution by Assistant District Attorney Henry, the partial examination in chief of former Police Commissioner Thomas Jackson, the introduction as evidence of a book of data from the mine books of the police commission for the years 1904 and 1905, and the questioning in relation thereto of the secretary of the commission, Officer Charles F. Skully, were the incidents that made up the first day's trial of Mayor Eugene F. Schmitz for alleged extortion of money from keepers of French restaurants.

Czar's Troops Mutiny.
St. Petersburg, June 6.—The fourth squadron of the Hussars of the guard, stationed at Tsarskoe-Selo, to which place the Imperial family had just moved, revolted against the strict discipline which recently had been instituted by a new commander. Seamen's Strike Unsettled.
Paris, June 6.—A settlement of the seamen's strike has not been reached. The men at many of the ports refused to accept the recommendation of the delegates who came to Paris, and voted to wait the decision of the national committee, whose headquarters are in Marseilles. At some of the southern ports the strikers manifested a turbulent spirit and several violent riots were reported.

Still Considering Harriman.
Washington, June 6.—A conference to determine whether civil or criminal action, or any action at all, shall be taken by the government against E. H. Harriman and the railroads controlled by him as a result of the investigations of the Interstate Commerce commission will be held at the White House. The President is anxious that some conclusion may be reached before he leaves the city for the summer. He goes to Oyster Bay next Wednesday.

Governor Dawson Will Act.
Charleston, W. Va., June 6.—Complaints have been made to Governor Dawson that a pool room, patronized largely by gamblers from Pittsburgh, is being operated at Virginia Station, this state. Governor Dawson has asked that full information concerning the violation be submitted to him, that he may take whatever steps are necessary for the enforcement of the law.

Emperor's Daughter Has Diphtheria.

BIRD SUPERSTITIONS.

Quies Beliefs That Were Held by the Ancient Mariners.

Birds as inhabitants of the air were naturally chosen by the ancients as omens and augurs of future happenings. The sensitiveness to atmospheric changes shown by many birds aided in establishing these notions. The real omens, however, were furnished by sea birds of a calm or storm or calm were doubtless magnified by the anxious, superstitious sailor.

The custom of hanging the sea swallow so that the bill may point to the wind arose from the old time custom of suspending the bird by the feet, expecting it would renew its feathers as it alive.

Divination by the flight of birds was a favorite method in the old times. Sailors watched their flight for indications of prosperous voyage and favorable winds. As they were thought to fly through the air to heaven, they easily became messengers of the will of the gods.

The albatross is believed by Jack tar to sleep on the winds. It was at one time thought that the petrel hatched its eggs under its wings.

The kites were at one time kept in chains to keep away marauders.

The fishhawk was considered a bringer of good luck; it boded good or evil as its cry was to the right or left.

There was an old superstition that gulls were never seen bleeding. Shooting stars were then supposed to be the half digested food of winter gulls.

LIVING IN PARIS.

The Way One Rents an Apartment in the French Capital.

An apartment should be seen on a sunny day before engaging, and it is not legally secured until papers are signed. The lease is on a quarterly basis. Payments are made in advance the 15th of January, April, June and October and occupancy given up to these dates. But when intending to leave the tenant should give his three months' notice before the first day of these months. Failure to do this and accident of the governmental trifling of a stamped paper hold him to a further three months' liability, as many a French American can witness. To avoid this it is merely needful to buy a stamped sheet of paper for 5 cents of the tabacconist, local vendor of all stamps, write the notice thereon and send it to the landlord personally or send it to him by registered letter. The landlord, although he collects the rent and has full charge of the house, is neither authorized to let the apartment nor to receive notices. In the paper signed by tenant and landlord the former guarantees to return the apartment in good condition, and if it is freshly painted, painted and waxed there will doubtless be something to pay on leaving, but care and economy in nail holes make the damages slight.—Circlo Magazine.

VENUS OF MILO.

The Famous Ancient Statue in the Louvre at Paris.

The Venus of Milo in the Louvre, Paris, is supposed by some to be the work of Alexandros, one of the Asklapio Greek sculptors. It is said that the base of the statue bearing the artist's name was destroyed for the purpose of causing the king of France to believe that the work was more ancient than it really was.

It was discovered on the island of Milo in 1820 by a peasant. It was in a niche in a wall which had been buried for years. The Marquis of Rivere bought it and gave it as a present to Louis XVIII. of France. It is made from two blocks of marble joined above the drapery which envelops the legs. As it now stands it has two breasts, which have been repaired by modern artists. The tip of the nose was broken when it was found and also the foot which projects beyond the drapery.

In point of fact, it has a great deal more resemblance to a modern than to a beautiful woman. At one time it was dressed in a cloth of a modern sort, and the effect was anything but pleasing. The figure of the statue is not at all adapted to modern clothes.—New York Tribune.

Why He Did Not Marry.

As a reason for not marrying Graham once wrote to a friend: "At the time when I should have wished to marry, my compositions were either unissued or at any rate very coolly received. I knew their worth, though, and that sooner or later the page would be turned, and in unmarred solitude I never really took my reverses to heart. But to be questioned by a wife at such moments to have her inquiring eyes anxiously fixed upon me to hear her ask, 'Again a Rasco? No, that I could never have borne, for, however much she loved me and believed in me, I could not have expected her to have unwavering faith in my subsequent victory. And had she attempted to molest me! Oh! I can't even think of it. It would have been little less than hell!'"—Monthly Review.

Milk In Turkey.

In Turkey there is a great consumption of the milk of the buffalo, the common cow, the goat and the ewe, but it is hardly ever used in a natural state. After slow cooking the milk is treated with a ferment taken from the previous day's supply. In a few hours a curd forms which is called yaghoon. The preparation is preferred to milk, and it has a pleasant, clean, acid taste and is, of course, nutritious.

The Happy Family.

Mrs. Scraggington (in the midst of her reading)—Here is an item which says that full grown rhinoceroses cost \$12,000 apiece. Mr. Scraggington (uneasily)—Rh-rh-rh! And isn't it a pity that women can't wear them on their hats?—Smart Set.

Convenient Arrangement.
"What are you buying now?"
"I am looking for some present to give my wife on her birthday. I tell you, making presents costs a heap of money."

"Why don't you do as I do? I have never failed to make my wife a present on her birthday every year for twenty-five years, and I am not out a penny this year."

"How do you manage it?"
"It is very simple. After we were married, when her birthday came, I gave her a £5 note. When my birthday came round, she gave me the note back, and we have kept that up ever since, and neither of us is out a penny."—London Tit-Bits.

Like Calling For a Drink.
A hard drinker was told by his doctor that he could be cured if every time he felt that he must have a drink he could immediately take something to eat instead. The man followed the advice and was cured, but the habit of asking for food had become so fixed with him that once he was nearly choked up as a lunatic. He was stopping at a hotel, and, hearing a great commotion in the room next to his, he peeped over the transom to see what the matter was. He saw and rushed madly down to the office and shouted to the clerk: "The man in 133 has shot himself! Ham and egg sandwich."

One Maid's Wisdom.
Clara—So you are going to marry for love, eh? Don't you think that is foolish?
Maud—Oh, no. I had sense enough to fall in love with a rich man.—Detroit Tribune.

Decidedly Not.
Most babies are homely little things but it isn't well to say so to their mothers.—Exchange.

WHY GOOD SHOES PAY

There's more than good looks to a good shoe. The difference in footwear is not merely a matter of wear and tear. A clean cut, shapely shoe cannot be made from any of the best leather—those are the kind that I want. The thing is to get the best of the leather, and to get it in the best of the leather. The thing is to get the best of the leather, and to get it in the best of the leather. The thing is to get the best of the leather, and to get it in the best of the leather.
